

America Slides into the Abyss - US Election Liveblog

by Stephen Elliott-Buckley - Tuesday, November 06, 2012

<http://politicsrespun.org/2012/11/america-slides-into-the-abyss-us-election-liveblog/>

There is an election today in the USA.

[Polling is not entirely helpful](#), or showing more polarization.

Obama will win and maybe continue to be underwhelming, continue domestic fascist surveillance and imperial tactics.

Or, Romney will win and usher in the apocalypse.

On a state-level, Washington looks like it will legalize pot and gay marriage.

Either way, they will all likely continue to ignore climate change. Sigh.
