Welcome to our Community Consultation Survey on Homeless Solutions and the Howe Shelter

via [City of Vancouver Homelessness Solutions Survey](#).

In a time where Vancouver city council may or may not have the will to oppose a provincial government they seem to be cozying up with, they issue a survey to see what the citizens think of addressing homelessness and the Howe Shelter.

Even if they do the wrong thing with this, asking for our input is better than an NPA council will do.

Even if the province ignores it all, this is a survey to take part in, especially if you live downtown!
