From: [HST not the lone Lib time bomb set to explode.](#)

Point Grey [Gordon Campbell's riding]: 10% of required signatures in one day.

Peace River North: 1,820 signatures on day one [over half]

This bodes well. Even with the initiative legislation not being binding on the government, getting 10% of voters in 85 ridings should freak out the government enough to bail out on the deal.
